

# HEMANTH P. R

## FULL STACK DEVELOPER – CSE GRADUATE

[prhemanth6@gmail.com](mailto:prhemanth6@gmail.com) — +91 7026697673 — [LinkedIn](#) — [GitHub](#) — [Portfolio](#)

### PROFESSIONAL SUMMARY

---

Computer Science and Engineering graduate with hands-on experience in responsive web development using HTML, CSS and JavaScript, supported by strong foundations in Python, SQL, Object-Oriented Programming and DBMS. Experienced in developing interactive web applications and application-focused projects. Familiar with REST API concepts, relational databases and frontend-to-backend architecture, with strong problem-solving, debugging, collaboration and communication skills.

### TECHNICAL SKILLS

---

|           |                                               |
|-----------|-----------------------------------------------|
| Frontend  | HTML, CSS, JavaScript, React.js               |
| Backend   | Node.js, REST APIs                            |
| Languages | Python, Java, JavaScript, SQL                 |
| Database  | SQL, DBMS, MySQL Concepts                     |
| Core      | OOP, API Integration, Authentication Concepts |
| Tools     | VS Code, Figma, GitHub, PoerwBI               |

### PROJECTS

---

#### Hyper Mart – Online Shopping Website

*HTML, CSS, JavaScript*

- Developed a responsive e-commerce web interface using HTML, CSS and JavaScript with interactive and reusable UI elements.
- Created product listing pages, navigation, search functionality and interactive components to improve usability.
- Applied frontend development concepts relevant to full-stack application architecture.

#### Genetic Disorder Prediction using Machine Learning

*Python, Machine Learning*

- Implemented Logistic Regression, Random Forest and Support Vector Machine (SVM) models to classify potential genetic disorders.
- Performed feature engineering and Exploratory Data Analysis (EDA) on genomic and medical datasets.

#### Smart Crop Recommendation System

- Developed an agriculture-focused application recommending suitable crops based on climate and soil conditions.
- Designed the solution to help farmers make informed crop-selection decisions.

#### BMI Calculator

- Developed an interactive BMI calculator using height and weight inputs with BMI categorization.

### EDUCATION

---

#### Bachelor of Computer Science and Engineering

**2026**

Channabasaveshwara Institute of Technology

CGPA: 8.1/10.0

#### Pre University Course – Vidyanidhi Pre-University College

**2022**

Percentage: 65%

#### Secondary School Leaving Certificate – Sri Chaitanya Techno School

**2020**

Percentage: 69%

### CERTIFICATIONS

---

- Technical Certificate in Python
- Technical Certificate in Java
- Artificial Intelligence Certificate – Elements of AI
- Artificial Intelligence Certificate – Great Learning Academy

### ACHIEVEMENTS & ACTIVITIES

---

- Organized Buildathon 2K25 at Channabasaveshwara Institute of Technology.
- Selected as a National Finalist in Ideathon – Final Round.
- Participated in a State-Level Hackathon at Atria University, Bengaluru.
- Participated in the National-Level Technical Fest, DSATM, Bengaluru.
- Designed a Figma prototype showcased during a technical event.
- Actively solving coding and DSA problems daily on HackerRank and LeetCode using Python 200+ problems.
